Re: Ash Monofill Annual Groundwater Monitoring Report in accordance with CCR Rule 40 CFR 257

Ms. Barbare:

In accordance with the Coal Combustion Residuals (CCR) Rule, 40 CFR 257 Subpart D, Platte River Power Authority (Platte River) has worked with AECOM on groundwater monitoring activities at the Rawhide Energy Station Ash Monofill. AECOM completed annual groundwater monitoring activities, including statistical analysis, and placed these findings in the annual report in accordance with 40 Code of Federal Regulations (CFR) Parts 257 requirements under the CCR Rule.

This completed report has been placed in the operating record and Platte River's publicly available website.
