**Subject: Clarification Related to Five-Year Updates for CCR Surface Impoundments, Platte River Power Authority's Rawhide Energy Station, Northern Colorado**

Dear Mr. Wood/Ms. Stewart:

AECOM is providing this letter to clarify the documentation requirements for the former Bottom Ash Transfer impoundments and the Reclaim Pond at Platte River Power Authority's Rawhide Energy Station under Coal Combustion Residual (CCR) Rule (40 CFR 257.50 – 257.107). The CCR Rule requires updates at least every five years to impoundments related plans and documents. However, because the BAT Impoundments and the Reclaim Pond were removed during July - October 2020, this CCR requirement is no longer applicable.

Please contact Vasanta Kalluri (970-530-3350) with any questions or comments.

Sincerely yours,

**AECOM Technical Services, Inc.**
